WILLIAMS
CHONGO

UX Designer/Web Developer

Hello, you can call me Will

I am an experienced web developer with a background in graphic design. I create visual web awesomeness. I'm adaptable, loyal, ambitious, a real Eagle Scout. I work well with small and big teams, and I have excellent communication skills. I am always determined to produce my best work with little to no supervision. I live, breathe, drink, and absolutely love web design. I love creating unique web applications, cultivating them, and watching them come to life.
